Professional Experience

ReactJS Development, *Fiverr*

Worked as a front-end developer. Got 5 stars ratings on every project.

Projects

MoviesGo [🔗](#)

MovieGo gives you real-time movie data using API. You can search for movies, view popular movies, get movies based on their categories, etc.

Technologies used: ReactJS, Tailwind CSS, JavaScript, API

Modern Portfolio [🔗](#)

This project has a modern website design. Every part of this portfolio is broken into many small react components. It is a portfolio site of a web developer.

Technologies used: ReactJS, CSS, JavaScript

Easy Bank [🔗](#)

This is a front-end design of a bank website. It is a project I made for the front-end mentor challenges. It is fully responsive to all types of devices.

Technologies used: HTML, CSS & JavaScript

Blogr [🔗](#)

The landing page of a modern publishing platform.

Technologies used: HTML, CSS, & JavaScript

Other Acheivements
